

Estimate Cover Sheet & Instructions

Fax To: 1.724.346.0234 OR Scan and email to info@signetfence.com

Attn: Signet Fence Sales

From: (Enter Name) _____

Comments:

Instructions

1) Print this page and the estimate form that is applicable to your project (IE. fencing or railing). If you want an estimate on both fencing **and** railing, print both estimate forms.

2) On the estimate form, enter your name, phone number, email address, and shipping zip code. All of this information is required.

3) If you know what fence or railing product you need, fill in box A. If you prefer to tell us the features that you want and let our professionals choose the product that best fits your needs, use box B.

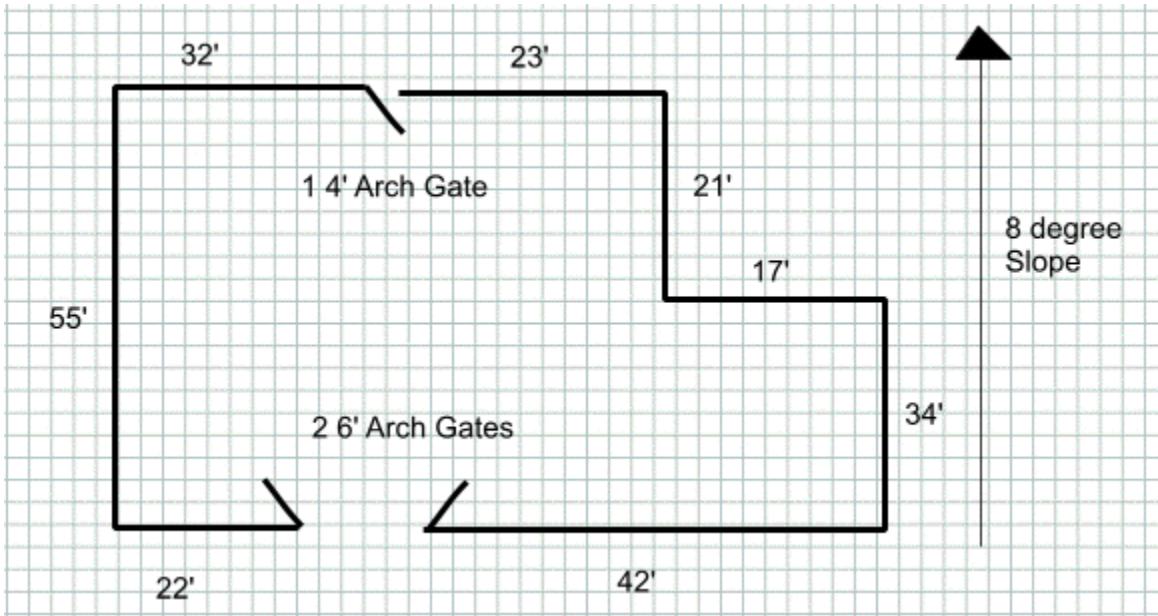

4) In the drawing grid, draw and label each run of fence or railing (see sample drawings) and any gates. Be sure to include measurements for both runs and gates. Also, let us know of any special situations including: fence posts mounted on concrete, fence panel that is mounted to a wall or structure instead of a post, a staircase that is not standard rise/run (for railings), and so on.

Important! If you chose option B in step 3, we need to know of any grades (hills) in your fence line, so label the angle of the slope (rise/run) on the diagram next to the measurements (See sample fence drawing below). If you chose option A in step 3, we will assume that you know whether the fence system you selected can accommodate any slopes.

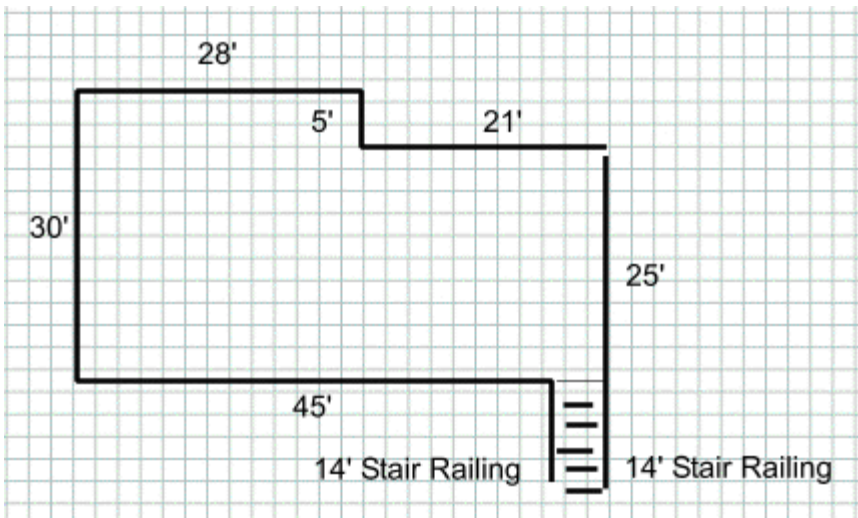

5) When you've finished diagramming your fence, fax this cover page and the completed estimate form to Signet Fence (fax number above). If you prefer, you can also scan this page and estimate form and email them to info@signetfence.com.

6) Within 24 hours, check your email for the estimate and instructions on how to purchase your fence supplies online. If you prefer that we call you with the estimate, please make a note to that effect in the comments section of the estimate form. * If you cannot find our emailed quote, please check your junk mail folder and, if not there, send an email to info@signetfence.com and let us know.
